AI Voice Call Agents for Business Automation

Sales | Support | Booking | Lead Qualification

What This Service Does

I build AI voice call agents that automate customer calls for businesses. They handle inbound and outbound calls using natural human-like conversations.

Capabilities

• Answer customer calls automatically
• Handle sales conversations
• Book appointments
• Qualify leads
• Provide 24/7 support

How It Works

Customer Call → AI Voice Agent → Conversation → Action (Booking, CRM, Sale)

Benefits

• Save time and reduce workload
• Increase sales and conversions
• Automate customer support
• Scale business communication

Tools Used

Twilio, Vapi / Retell AI, OpenAI, CRM Integrations, Webhooks
